Proceedings of the Indian Academy of Sciences

Volume 91, 1982

CONTENTS (Plant Sciences)

Thaxteriellopsis lignicola and its *Moorella* anamorph
C V Subramanian and G Sekar 1

A contribution to the embryology of *Alysicarpus monilifer* D.C.
V Seshavatharam 9

Non-inheritance of isomerism in cocoyams *T Venkateswarlu* 17

Apomixis in *Cenchrus glaucus* Mudaliar et Sundaraj *C Shanthamma* 25

Regeneration of plantlets from callus of *Elettaria cardamomum* Maton
N K Srinivasa Rao, S Narayanaswamy, E K Chako and R Dore Swamy 37

Studies in Cyperaceae: XVII Novelties in *Fimbristylis* (L.) Vahl and their vegetative anatomy *E Govindarajalu* 43

Embryological studies in three species of *Cymbopogon* Spreng (Poaceae)
S P Choda, Harsh Mitter and Ravinder K Bhanwra 55

Reproductive efficiency of secondary successional herbaceous populations subsequent to slash and burn of subtropical humid forests in north eastern India *K G Saxena and P S Ramakrishnan* 61

Vesicular arbuscular mycorrhiza in subtropical aquatic and marshy plant communities *R Chaubal, G D Sharma and R R Mishra* 69

Chandrasekharania : A new genus of Poaceae from Kerala, India
V J Nair, V S Ramachandran and P V Sreekumar 79

Chromosome relationships of spinous solanums
P B Kirti and B G S Rao 83

Groundnut rust–its survival and carry-over in India
P Subrahmanyam and D McDonald 93

Correlated promotion of ray-floret growth in chrysanthemum by potassium chloride, gibberellic acid and sucrose
P Pardha Saradhi and H Y Mohan Ram 101

Nuclear behaviour during heartwood formation in *Acacia auriculiformis* A. Cann *K V Bhat and J D Patel* 107

Identity of *Ficus macrocarpa* Wt. *ex* King (= *F. amplocarpa* nom. nov.) and *F. guttata* (Wt.) King–A reinvestigation with anatomical evidence
E Govindarajalu and P Masilamoney 115

The genus *Jackiella* in South India *Ram Udar and Adarsh Kumar* 131

Geocalyx Nees–a rare marsupial genus from India
Ram Udar, S C Srivastava and Dhirendra Kumar 139

Ontogeny of the paracytic stoma: Variations and modifications
Parveen Farooqui (née Kidwai) 145

Growth response of some thermophilous fungi at different incubation temperatures *S Singh and D K Sandhu* 153

Studies on *Beggiatoa* : Distribution and growth in aquatic habitats of Visakhapatnam *M R R Mohan and A Narayana Rao* 159

Photoperiodic control of extension growth, bud dormancy and flowering of *Nerium indicum* Mill. and *Thevetia peruviana* Schum.
Kushal Singh, Surinder Kumar and K K Nanda 175

Interaction of kinetin with B group vitamins on the seedling growth of green gram (*Phaseolus radiatus* L.)
P Gopala Rao and J Kodandaramaiah 183

Leaf architecture of apocynaceae *J S S Mohan and J A Inamdar* 189

Impact of extension growth and flowering on the cambial activity of *Delonix regia* Rafin *A K M Ghouse and Shamima Hashmi* 201

Pharmacognostic studies on the flower of *Mesua ferrea* L.
Usha Shome, Shanta Mehrotra and H P Sharma 211

Effect of CO_2 in overcoming self-incompatibility barriers in *Brassica campestris* L. var. toria *A S Dhaliwal and C P Malik* 227

Pharmacognosy of the stems of *Portulaca quadrifida* L. and *Portulaca oleracea* L. *J Lal and A M Khan* 235

Structure and function of a sub-tropical humid forest of Meghalaya I. Vegetation, biomass and its nutrients *Jasbir Singh and P S Ramakrishnan* 241

Structure and function of a sub-tropical humid forest of Meghalaya II. Litter dynamics and nutrient cycling
Jasbir Singh and P S Ramakrishnan 255

Structure and function of a sub-tropical humid forest of Meghalaya III. Nutrient flow through water *Jasbir Singh and P S Ramakrishnan* 269

Anatomy of the seedling of the Leguminosae—I
Umavathi Hegde and V D Tilak 281

Cork-warts in *Eucalyptus* species *Parveen Farooqui (née Kidwai)* 289

Pericarpial sclereids in some Mimosaceae
S Rangaiah, I L Kothari and G L Shah 297

Viability and infectivity of zoospores of *Sclerospora graminicola* (Sacc.) Schroet in the soil *C R Ramesh and K M Safeeulla* 303

Initiation, development and structure of root nodules in some members of the tribe Trifolieae (Papilionaceae) *G L Shah and M Gopala Rao* 309

Turnera ulmifolia var. *elegans* × *T. ulmifolia* var. *angustifolia* crosses and its bearing on the taxonomy of the species
K Rajeev, P I Kuriachan and C A Ninan 319

Airborne pollen grains of Visakhapatnam: A combined field and air sampling study *A Janaki Bai and C Subba Reddi* 329

The floral anatomy of *Kniphofia uvaria* Hook. (Liliaceae : Kniphofieae)
N P Vaikos and R M Pai 351

Transmission of seed-borne inoculum of *Macrophomina phaseolina* from seed to plant *Tribhuwan Singh and Dalbir Singh* 357

Effect of water stress on opening and longevity of flowers in Gladiolus
I V Ramanuja Rao and H Y Mohan Ram 371

Petal venation in *Trigonella* (Papilionaceae) *Mohini Gupta* 379

Responses of cotton-cultivars to long day conditions
J G Bhatt and M R K Rao 389

Seed germination and seedling establishment of two closely related *Schima* species *Ram Boojh and P S Ramakrishnan* 397

Anther and pollen development in cotton haploids and their parents
S S Mehetre 409

Changes in proteins, amino and keto-acids in different seedling parts of *Cyamopsis tetragonolobus* Linn. during growth in light and darkness
Prem Gupta and D Mukherjee 417

Effect of ridge gourd pollen on zoospore germination of *Pseudoperonospora cubensis* and its significance in epidemiology
Amarnatha Shetty, H S Shetty and K M Safeeulla 427

Leaf proteinase and nitrate reductase activities in relation to grain protein levels and grain yield in four species of grain amaranth
K Ramamurthy Naidu, Y Seethambaram and V S R Das 433

Cell division in *Staurastrum gracile* Ralfs. under the scanning electron microscope *Vidyavati* 443

Leaf surface studies of some medicinal salvias *H P Sharma and Usha Shome* 449

Morphological and metabolic changes in the egg and zygote of *Lagerstromeia speciosa*, I. Cell size, vacuole and insoluble polysaccharides
P Raghavan and V J Philip 465

The floral anatomy of *Puya spathacea* Mexz. (Promeliaceae) with special reference to nectaries *R A Kulkarni and R M Pai* 473

Cytological studies on certain acanthaceae from Central India
M I S Saggoo and S S Bir 479

Heterotrophic bacteria associated with seaweed
R Lakshmanaperumalsamy and A Purushothaman 487

Association of chlorophyll content, phyllotaxy, photosynthesis and B-group vitamins in some C_3 and C_4 plants
P Gopala Rao and J Kodandaramaiah 495

Effect of morphactin, AMO-1618 and DPX 1840 on the endogenous levels of hormones and its implication on apical domnance in *Glycine max* Linn.
I S Duai, U K Kohli and K S Chark 501

Taxonomic importance of epidermal characters in the Indian *Thespesia* Corr. (Malvaceae) *S Raja Shanmukha Rao and N Ramayya* 509

Embryological studies in *Launaea nudicaulis* Hook.
P S Chikkannaiah and B S Hiremath 519

Quantitative profile structure of certain forests in the Kumaun Himalaya
A K Saxena and J S Singh 529

Contributions to our knowledge of Indian Algae—III. Euglenineae-Part I. The genus *Euglena* Ehrenber *M T Philipose* 551
